# Introduction

## Excellence comes as standard, so for quality and reliability accept no substitute.

With corporate head office in London's Mayfair, Napier now operates from three key centres. A main distribution and sales centre in Oxfordshire, to service all UK with next day deliveries and to provide bulk service to addresses around the world. In the USA the distribution to consumers and dealers is from our new facility in Fairfied Virginia where we offer Dealer and wholesaler processing plus Mail order and Internet shopping delivered by major carriers. For our customers in Scandinavia and the Baltic, we now operate a trade only distribution service from Malmo Sweden.

All Napier of London Products are designed and produced to the very highest standards and every item is fully guaranteed. Our gun care and corrosion control chemicals are all manufactured exclusively in England to stringent quality and environmental standards ISO 9000 and ISO 14000, and we source only quality assured raw materials that are made and processed in the UK. Our formulations comply with all current HS requirements and legislation; MSDS data is available for all products where necessary on request. Stringent Quality control and new product development are the first line of our policy; we aim to bring you the best possible products through innovation and design. Testing of Napier products is taken far beyond the statutory requirements, our Polycarbonate safety lenses are tested to exceed BSEN 1836 (1997) European Optical Standards & equivalent US ANSI specifications, we test using our own shotgun direct impact test, (A no 8 shot 32gmm cartridge is fired directly at 15 yards, no shot will penetrate our Polycarbonate lenses) Of course all appropriate products carry the  symbol, as your assurance of European approval.

In our clothing and shooting luggage we use the finest materials including real alpaca and wool blend cloths, and HI tech manmade fabrics, combined with best quality leather and brass fittings.

Napier is proud to display a growing array of industry awards and key endorsements for our ever-growing range of unique and patented products.

“Napier of London is dedicated to the manufacture of traditional quality sporting goods through a policy of innovation and the use of modern production techniques. Napier proudly innovates, never imitates. We develop and design excellence as standard.”

# Serious about airguns?

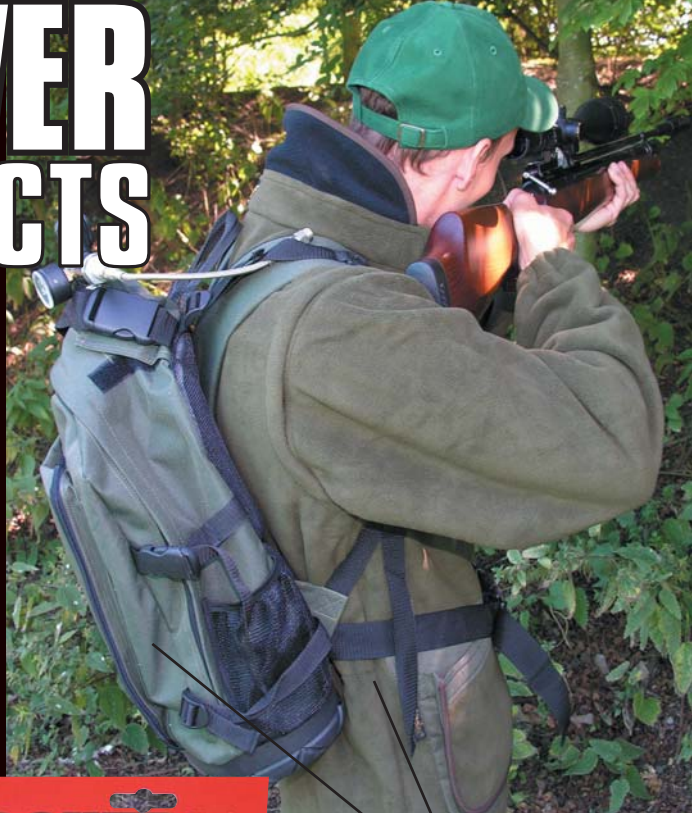

# POWER PRODUCTS

At Napier we are.

World champion target shooters, professional vermin control hunters, and recreational shooters all benefit from using the very best in our airgun care range of Power Products.

Napier products are used and recommended by the worlds best airgun makers, and the growing list of championship winners is testimony to our passion for quality.

New products, made especially for airgunners are now available, with emphasis on safety and performance.

### Power Pellets

**Power Pellets** have been achieving outstanding results in competition and field and are now presented pre-treated with Napier's world acclaimed **Power Pellet Lube**.

The benefits of using Power Pellet Lube have been proven over the past 5 years, and following feedback from shooters and the industry, Napier have now incorporated the chemical into each tin of pellets at final packing stage.

This ensures that exactly the correct dose has been applied and that the pellets cannot oxidise in storage, and will perform perfectly in every type of airgun straight from the tin.

- 6051 .177 Power Target 7.69 grains
- 6052 .22 Power Target 15.46 grains
- 6053 .177 Power Hunter 7.72 grains
- 6054 .22 Power Hunter 15.42 grains

# POWER PELLET LUBE

A quite remarkable simple to use product that **will** improve accuracy with any pellet and on any type of airgun **guaranteed**.

The unique complex formula does much more than lubricate, in fact it creates a chemical seal around the skirt of every pellet, ensuring that it will not skim or tear on the rifling of the barrel.

This in turn greatly improves the gyroscopic effect and results in improved flight, with dramatic improvement in accuracy.

Now used by almost every top competition shooter with winning results.

Power Pellet lube really is now the choice of Champions and is endorsed by leading airgun manufacturers.

Now any one can benefit from improved accuracy on **any** brand of pellet.

## At last a safe and efficient way to carry a 3-litre bottle!

### Ranger 6

With so many pneumatic airguns in use it is often necessary to carry a refill of compressed air to a shooting location or when travelling, to refill the tank.

Napier now have the answer to transporting up to 3 litre bottles.

The Ranger 6 has a solid reinforced rubber base, it sits upright easily and will not topple, a secure strap holds the centre of the bottle in place and the valve unit can protrude through the top of the bag, again it is anchored securely with a large quick release buckle.

This design enables the shooter to refill the gun directly from the bag without the need to open it and the vast extra space inside is adequate for a host of other shooting gear.

In addition there is a front zipped compartment that has pouches to hold magazines, cleaning kit, pellets, etc.

Plus two net side pouches for easy access to essential bits and pieces.

Ranger 6 is engineered to be strong where needed, the solid base and foam holder can be removed, and the bag can seal to form a conventional backpack when not used to carry air tanks.

The strong shoulder and waist straps are adjustable and comfortable.

The valve unit is stored in a loop on the shoulder strap, and our new mobile radio/ phone holder is designed to fit perfectly on the strap.

**Reinforced rubber base**

**Also available in Advantage Timber pattern**

Transport up to 3 litre bottles in the new Napier Ranger 6 backpack

### Power Airgun Oil

The result of 5 years development and field trials, Power Airgun Oil has already been supplied for several years in the Air Arms master service kits.

Now available to everyone, the 200ml aerosol oil is ideal for any type of airgun, CO2, Pre-charged, or Springer's.

Its unique properties when used as directed will ensure proper cleaning and lubrication of the mechanism and barrel, without the risk of damage to seals or O rings, and of course the product will not cause dieseling.

Incorporating VP90, Napier's world renowned corrosion inhibitor, the oil is easy and safe to use, it resists finger marks, and thoroughly protects and lubricates all parts of any air gun. The 200ml can is economical in use as a little goes a very long way.

Shooters can have absolute confidence when using Napier products which are already endorsed by many of the world's leading airgun makers, as the packaging proudly displays.

6055 200ml (8.6 US fl Oz)

### Power Pull Through Kit

Napier's Airgun Pull Through Kit contains everything you need to effectively clean any type of air rifle, and is suitable for .22 and .177 calibres

Strong coated cable with a soft flexible loop is passed through the barrel, attach a pre-cut Rifle Clean patch and simply pull back through the gun, repeating the process until all traces of fouling are removed.

Supplied with anodised handle, cable, loop attachment, 50 Rifle Clean airgun patches, 3 Field Patches, 200ml of Power Airgun Oil and instructions. All contained in a handy zip bag, with ample room for more items

3133

6730 Power Air Gun Patches (for use with the kit) - pack of 65

6730

### Power Airgun Grease

The new Airgun Grease too has been tested to the extreme and has been an important part of the Air Arms master service kit for some years. Now this too is available to all Airgunners and is ideal for application to springs, its special properties guarantee best performance without the risk of damage to thrust washers, and seals.

3034A 25ml (1 US Oz)

# Designed to protect your guns from rust

# VP90

## HOW IT WORKS

**Developed, formulated and produced in England by Napier of London, VP90 is designed specifically for the needs of shooters.**

VP90 is a scientifically blended vapour phase inhibitor which releases a controlled monomolecular chemical. It is attracted to all metals, both ferrous and non-ferrous, and it will not adhere to wood, plastic or glass. **VP90 does not contain any Volatile Organic Compounds (VOC) or Nitrates, is a completely dry compound, with no odour, no oily film, and is biodegradable.** It is safe to use on even the most delicate parts and will seek out exposed metal even in places that you cannot reach with the oil can, the unique dry delivery system can be safely used in cabinets and gun bags. Anywhere air can penetrate VP90 will protect. Which is why it is used in all of Napier gun care products.

With its 18 year track record it is used and recommended by BSA, BASC, Royal Berkshire Shooting School, E J Churchill, Brattonsound, Suzuki, Promatic, Topmark, Theoben, Air Arms, Ithaca, and other leading gunmakers worldwide.

The SELF HEALING film is resistant to handling

VP90 vapour deposits an invisible mono molecular film which bonds to any exposed metal surface

Anywhere air can penetrate Super VP90 will seek out and protect exposed metal surfaces

Forms a barrier impervious to attack from moisture and other corrosive elements

[www.vp90.com](http://www.vp90.com)

VP90 is blended into our range of gun care chemicals and will enhance the performance of our award winning cleaners and oils by providing the very best level of corrosion protection available.

### Super VP90 Corrosion Inhibitor

One sachet will protect a typical gun safe for over 12 months

Install a Super VP90 sachet in any gun bag or slip. All Napier Gun Bags are provided with a special pouch to hold a sachet and protect your gun from corrosion whilst in transit.

VP90

Independent test proves that VP90 really works.

Napier Super VP90 is used & recommended by Suzuki Grand Prix Racing team.

It is proven in the most extreme conditions on earth to provide total protection from corrosion.

Independent tests prove that VP90, made only by Napier of London offers the greatest level of protection from a convenient sized dispenser.

Compared to impregnated plastic and paper products, VP90 Sachets offer a huge active surface area.

This means that a much greater area can be protected, **quicker, cheaper, and for longer.**

Just one VP90 Sachet is equal to several conventional VCI products, and is suitable for installation in bags as well as boxes and safes.

Unlike plastic or metal dispensers VP90 sachets remain totally flexible and cannot damage the gun or other delicate object when installed in any bag. Super VP90 is harmless to wood, glass or plastics.

No wonder VP90 is chosen by top gun makers, professional race teams and industrial users worldwide.

**Now in a joint promotion, a FREE sachet of VP90 is provided with every NEW Brattonsound Gun Safe.**

### If you value your Gun, PROTECT it.

For just a few pennies a week, Super VP90 will protect any metal object within a typical gun safe for over 12 months. In fact one sachet will protect 1 cubic meter (35.5 Cubic feet) It may also be placed safely inside any suitable storage container, gun bag, tool box, tackle box, display cabinet, safe, etc.

Supplied with full instructions in a sealed package, Super VP90 packs can be placed inside any cabinet with the adhesive tab provided, or can be put inside your gun bag.

Super VP90 is made to complement the finest range of cleaners and lubricants you can use on your gun. All the Napier range of cleaners and oils contain Super VP90 and, when used in combination, offer the most effective level of protection from the elements that money can buy.

Topmark Trading ApS

Chosen by BASC, Royal Berkshire Shooting School, EJ Churchill and many leading gunmakers worldwide

### Gun Cleaner

Napier's award winning Gun Cleaner Lubricant.

Two in one action. Cleans and oils any type of gun. Removes fouling, effectively cleans using safe solvents, leaves a micro film layer of Napier Gun Oil and ensures lasting protection from corrosion.

**Will not** degrease and can be safely used on all firearms and airguns.

This product is made specifically for guns and will not damage oil or urethane stock finishes.

The new GA Connector allows fast refuelling of the 100ml can, this is cost effective and environmentally friendly.

6014 300ml (12.7 Fl Oz)

6014R 750ml (31.7 Fl Oz)

6014I 100ml (4.3 Fl Oz)

GA750

### New GA Connector system for Napier's Refillable Gun Cleaner Lube.

At Napier we take safety very seriously and the new GA Connector system makes refilling of the handy 100ml aerosols even easier and safer than before.

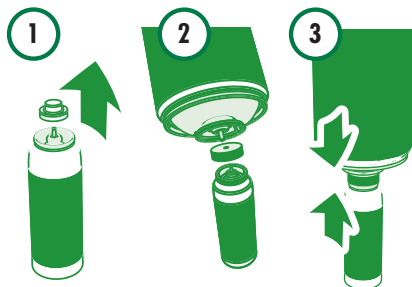

This new system is more secure in use and meets the most stringent health and safety criteria, the solid adaptor simply connects the two new cans together allowing the 100ml version to be refilled from the giant economy can.

Of course both the 100ml and 750ml products can be used independently.

All refillable cans carry the GA Refill System Logo.

Voted Britain's Favourite Gun Care Product this cleaner really works, removing all fouling easily but leaving a film of VP90 corrosion inhibitor oil on all surfaces. No more fingermarks or rust, the 100ml is easy to carry with your kit and the 750ml economy can is great at home.

Refilling the 100ml can be done at any time, its as simple as 1.2.3

6017 125ml (5.29 Fl Oz) bottle

6015 300ml (12.7 Fl Oz) aerosol

### Gun Oil

Napier Gun oil is the last word in protection for any firearm. Containing VP90 corrosion inhibitors for contact and vapour phase action this oil has the ability to penetrate into even the most inaccessible parts of the gun to provide complete protection from corrosion. Napier Gun Oil will not break down under extremes of temperature and will keep ejectors and action protected. The high surface adhesion properties help to keep the oil where it is needed and make removal of finger marks a simple matter of wiping over the gun.

Available in two sizes:

125ml drifter bottle.

300ml CFC-free aerosol.

The 125ml Gun Oil, is now supplied with a new handy shape bottle and a quick lock twist to open and close cap, unlike the old fashioned caps on cans and bottles, **it will not leak.**

Same great product, now easier to dispense and use.

Now new oil and grease specially for airguns see page 5

### Bore Solvent

For the complete removal of lead, copper and nitro powder residues.

It will effectively clean any type of gun barrel.

6014B 50ml (2.1 Fl Oz)

### Napier VP90 Grease

Supplied in a new easy to dispense plastic tube with large non-slip cap.

This white grease is highly water resistant (to DIN 51807).

VP90 operates effectively in temperatures of -20c to +120c

3034 Supplied in 25ml (1.05floz) dispenser tubes.

4760 London Gunstock Finish Kit and accessories see page 15

### Black Powder Solvent

Entirely new way to remove all black powder residue. One step action converts fouling to a clear liquid. No scrubbing, 10 minute foaming action.

One bottle can be used up to 12 times on a typical B/P revolver.

6020 200ml (8 Fl Oz)

### VP90 Formula X

Is the ultimate cleaner and protector for all types of machinery and equipment.

Protects from rust, lubricates and cleans

Safe on all equipment

Use Formula X to clean power tools, hand tools, clay pigeon traps, garden equipment, marine engines, mowers, agricultural machinery, motor cycles, fishing gear, boats and cars. In fact 1000s of uses in the home, factory or workshop. Incorporating proven, safe, VP90 vapour and contact inhibitors.

Formula X contains a special blend of powerful solvents to blast away dirt and grime from any part, and will leave a dense film of Super VP90 lubricant to provide long lasting protection from rust.

Ideal for loosening locked and seized parts, it will penetrate into all areas and the powerful vapour phase and contact inhibitors will act to protect anywhere air can penetrate.

A must for the outdoor enthusiast as well as being the only product you will ever need in a toolbox.

The special refill system allows the handy pocket spray to be re-fuelled at any time from the giant 750ml can.

Simply connect the two cans together using the GA Connector, full instructions on every can.

**7914** 100ml (4.3 Fl Oz)

**7913** 750ml (31.7 Fl Oz)

**GA750** GA Connector

### VP90 Super Shield

A Unique Barrier spray. It will protect any metal object from corrosion even when permanently exposed.

It forms an instant flexible barrier that bonds to the surface providing a permanent seal against the elements.

Incorporating proven, safe, VP90 vapour and contact inhibitors. It will protect from rain, salt water, condensation and 100% humidity.

It is ideal for use on equipment that cannot be stored in a dry place.

It is also supplied with 2 spray pattern nozzles, a wide angle for applying to close surfaces and a jet nozzle for directing the spray into inaccessible parts.

Super Shield will not dissolve when in contact with water, even boiling water! Won't rub off, and is suitable for use on auto, marine and other engine parts.

**7912** 750ml (31.7 Fl Oz)

Formula X and SuperShield are used in manufacture and are recommended and used by Promatic clay pigeon traps.

# Clean your Shotgun, Rifle or Airgun the Napier way.

## Super Clean

A non-woven smooth-bore gun cleaning material with a textured construction to ensure the swift removal of fouling and excess solvents from shotguns. It is supplied in a 14-metre roll and is dispensed from a convenient carton the size of a box of cartridges. Unlike patches, Super Clean will not lint or fray and is an inexpensive and highly effective method of cleaning.

4726 14M (15.3yards)

## Rifle Clean

A uniquely textured highly absorbent and amazingly strong material for the effective cleaning of all guns, with a particular emphasis on rifled bores. Out-performs patches in every way and, being 75% thinner, can be wrapped around a wire brush. It moulds to the contours of the rifling to ensure complete removal of all fouling. It is also totally unaffected by solvents which it rapidly absorbs. Each box contains 14 metres of material which can be dispensed to suit all calibres of pistols or rifles.

4730 14M (15.3yards)

4001 Rifle clean cutter

New airgun Power Pull Through Kit see page 5

### Super Economy Cleaning Kit

Contains 2piece Aluminium Rod, Jag, Bronze Brush, Wool Mop, 10ml VP90 Gun Oil, 3 Field Patches.

### Wooden Boxed Cleaning Kit

Kit includes: Brass Jag, Wool Mop, cleaning brush, 10 Field Patches, 70ml VP90 Gun Oil, 100ml Gun Cleaner aerosol, Super Clean, Gun Grease, 3 Piece Aluminium Rod, polishing cloth.

All packed in a slide top, wooden presentation box which has ample room for any other cleaning materials. Super value.

5212 12g  
5220 20g

### Deluxe Rifle Cleaning Kit

Supplied with one brass section 4piece Rod, a sample of Rifle Clean, 5 Field Patches, 70ml of Gun Oil and loops to take all of your favourite tools. Note .22 kits include brush and mop, for .30+ calibres simply select the tools required from our extensive range to complete your kit bag.

4791 .22  
4792 .30+

### Napier Field Patch

The Field Patch is a quick and convenient way of protecting your gun whilst shooting or at home. Each sachet contains a full sized Super Clean patch and is impregnated with 2ml of Napier Gun Oil, this is sufficient to completely clean and rust proof your gun both inside and out. Blended with VP90, a powerful vapour phase corrosion inhibitor that completely protects the gun from rust and will resist finger marks on the bluing.

Forms a self healing film that allows the gun to be handled without leaving marks or affecting the rust preventative quality.

Safe on any gun, the Napier Gun Oil will not affect stock finishes.

It is ideal for cleaning and rust proofing almost any metal object, carry some in your glove box, tool box or with fishing tackle. Versatile and effective, each carton contains 10 Field Patches.

4726F

### Deluxe Shotgun Rods

Made from polished and coated aluminum ideal for shotguns including those fitted with retro chokes, these new rods are all 91.5cm (36") long and avoid the danger of hand injury on the ejectors. Superbly made to last for years. Available in two or three-piece, they accept all British threaded tools.

## London Gunstock Finish Kit ...when only the best will do

Napier London Gunstock Finish Kit has been developed for use on all wooden gunstocks and will achieve an excellent finish with outstanding protection.

Our master gunmaker Frank Whyman uses this secret formula every day, as have hundreds of London gunmakers before him. Now you too can obtain a truly professional finish by using the products contained in this kit.

4760

NAPIER LONDON GUN STOCK FINISH IS USED BY LEADING GUNMAKERS WORLDWIDE AND HAS WON BRITAIN'S FAVOURITE GUN CARE PRODUCT.

*"We tried Napier London Gunstock Finish and it has solved all of our problems. This finish is superior to all others we have tried..."*

*... our Ithaca Grade 6E with Napier oil finish has won the Gold Medal Concourse D'elegance at the recent World Side by Side Championship.*

*You have made a great difference in building our fine guns."*

Stephen R Lamboy  
Ithaca President

All contained in an attractive wooden presentation box to keep your kit together and ready for use.

Individual items are available separately to replenish your kit when necessary. Now you can keep your stock in perfect condition by using this kit at the beginning or end of each season or to enhance a dull finish at any time.

Each kit is supplied with

- 100ml Napier Gunstock Finish
- 10ml Rubbing Oil
- 10ml Grain Sealer
- 4 applicator pads
- 1 pack of abrasives
- 1 final polishing cloth
- Instructions for use

## London Gunstock Finish

Each 100ml (4.3fl.oz) bottle is sufficient for several applications and is supplied with full instructions.

4761

We worry about safety... So that you don't have to!

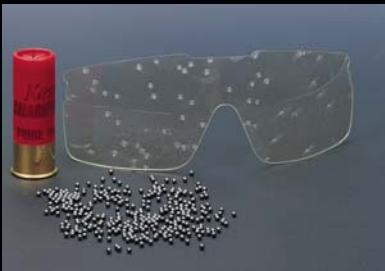

All Napier products meet or exceed required safety standards.

**CE** Our ear defenders are CE approved and have impressive levels of protection.

Our optical range is made for all shooting sports and each batch is tested to withstand a shotgun blast at 15 yds, (No8 shot 32 grm 12 g)

We design our products to be functional, comfortable and safe.

All Napier polycarbonate lenses exceed BSEN 1836 - (1997) standards and pass our shotgun test.

**P9**

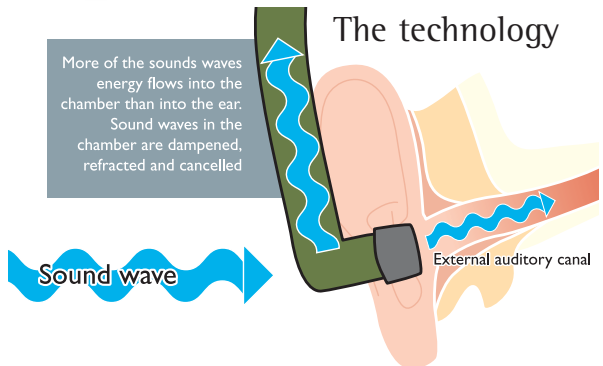

**NEW** for 2007

1097 Supplied complete with 2 extra sets of replacement ear cuffs.

More of the sounds waves energy flows into the chamber than into the ear. Sound waves in the chamber are dampened, refracted and cancelled

The technology

### Pro 9 Noise Cancelling Hearing Protection

Exclusive, Patented Breakthrough

Effective Noise Cancelling technology without Batteries, Electronics, valves, or any moving parts!

Unique patented sound chamber technology, directs damaging sounds away from the ear canal, where they are dampened, refracted and cancelled.

The effect is amazingly clear low level sounds such as speech, but with highly efficient protection from damaging noise levels such as gunfire with over 32 Decibels of noise reduction, evenly across all frequencies.

Because the soft comfortable and replaceable ear cuffs seal at the ear but are not inserted into the ear canal, they are vastly more comfortable than sonic, passive or electronic ear plugs.

The lightweight unit is barely noticeable when worn and can therefore be used for long periods without discomfort, vitally important when used by instructors, students, beaters, trappers etc.

Normal conversation is possible whilst wearing the Pro 9 and it is slim with no profile below the ear, making it vastly more suited to shotgun mounting than any type of ear muff.

The unit is remarkably light at just 40 Grams 1.7 ounces.

It can be folded and carried in a shirt pocket.

It is completely weatherproof

Developed from years of University Auditory research the Pro 9 is a marvel of science at work.

Pro 9 patented technology, completely out performs other hearing protection, with its simplicity and its value, it puts cutting edge hearing protection within everyone's reach.

Shown actual size

1197 Pack of 2 sets of easily fitted replacement ear cuffs.

ED960

- High Quality Sound Reproduction • Protection with Amplification • Lightweight (only 280grams inc. Batteries) • 200 Hour Battery Life • Batteries Included • Adjustable Padded Headband • Reduced Wind Noise Microphones • Super Comfort Ear Pads • 2 Year Warranty •

## ED960 Electronic Ear Defender

These latest design Electronic ear defenders are the ultimate in hearing protection.

The Super Soft foam ear pads are comfortable and seal effectively even when wearing glasses, and the padded headband is fully adjustable to be worn over almost any head wear.

The advanced electronic circuits offer improved amplification over our previous models and provide excellent protection from damaging noises whilst increasing the ability of the wearer to distinguish low level sounds often missed by normal hearing.

This Model is the ideal choice of Game and Clay shooters as the independent sound levels may be set for any discipline.

The ultra low drain circuits consume less power than many others and provide a 200 average battery life from a single "N" cell battery installed in each ear cup, therefore eliminating the need for any trailing wires and increasing reliability.

The ED960 is supplied with its own crush proof case and a set of batteries.

Replacement Hygiene kits are available and the equipment is made in Switzerland and guaranteed for 2 years.

An Ear Defender Holder in Green or Camo is available to fit this model. See below.

## ED100 Ear Defenders

Lightweight and effective the ED 100 folding ear defender is compact and popular with all shooters, particularly shotgun users.

ED100

## Ear Defender Holder

Made to hold the ED960 electronic defenders, this stylish and practical bag is made from tough NATEX material and can be fitted to any belt including the quick release Napier Sport Belt. There is no better way to look after your valuable ear defenders. Also takes the ED100 passive and most other makes of slim line muff.

3060 Forest Green

3060T Advantage Timber

## Comfy Plugs

These are the most comfortable in ear foam plugs available.

These shaped ear protectors are made from closed cell foam that is hygienic and more efficient than conventional material.

Impressive protection rating of SNR 37.

Now supplied in handy key chain tube, that can be attached to keys, belt or bags.

CE mark. Made to BSEN 24869-1-1993 ISO 4869-1990

6006

### SL Range

These single lens designer style glasses are made from class 1 polycarbonate and offer the same level of protection as all of the Napier optical range. Available in Vermillion, Sodium Yellow, Smoke Grey or Clear. These inexpensive single lens glasses are supplied with optically correct polycarbonate lenses which exceed UK and European standards, the composite frames are light and comfortable and have adjustable arms for a perfect fit, each set is also supplied with a detachable neck cord for added comfort and security. Weight 24 grams.

- SLG Grey
- SLV Vermillion
- SLS Sodium
- SLC Clear

### Glasses Pouch

Made to hold the SL range of shooting glasses this attractive draw string pouch can also be used to carry S6000 and N4000 glasses plus of course any other small accessory, chokes or loose change. Made from soft and waterproof nylon in black.

SLX

### Prescription Lens Holder

The cost effective solution for spectacle wearers.

The SLP fitting is simply inserted in place of the nose piece on the SL range of shooters glasses, (your prescription is easily fitted to the SLP by your own optician), you can then change the colour of the shooting glasses whenever you need and your own lens will always be protected by our class one polycarbonate SL outers.

SLP

S6000

### System 6000 Multi Sport Glasses

These sporting glasses are made using polycarbonate lenses which exceed BSEN 1836 – 1997, with the unique Napier (Quadrigrip) lens lock.

Complete with four sets of class 1 refraction lenses in Vermillion, Sodium Yellow, Smoke Grey and Clear. All offering UV400 protection from UVA and UVB wavelengths. Not only is the System 6000 made for maximum safety whilst shooting, they are extremely comfortable and, weighing only 25g, are designed for all-day wear in any sport or lighting conditions.

Each set is complete with:

- Sodium (yellow) polycarbonate lens
- Vermillion (rose) polycarbonate lens
- Grey polycarbonate lens
- Clear polycarbonate lens
- Component case
- Neoprene sports band
- Lens cleaning cloth

# Taking the design of shooting luggage to a new level

Napier has taken the design of shooting luggage to a new level. Since the introduction of the patented Protector 2, we have been at the fore front of innovation in the design and manufacture of all types of luggage.

Every aspect of our range is the result of extensive field trials, often aided by professional sportsmen, photographers and zoologists.

That is why we offer such a varied and unique range of best quality kit that is guaranteed to perform, like the new Ranger 6 and Ranger 7, packed full of specific features especially for the shooter and discerning sportsman.

Ranger 7 Chameleon Back Pack

Our Most advanced pack ever  
 The Ranger 7 is really 4 Packs in one.  
 It is a conventional NATEX Green Polyester full size pack.  
 It can be separated from its insulated and padded base bag.  
 It can become invisible instantly by deploying its built in  
 Hardwoods® cloak.  
 And it can become a life saver by fitting an optional Blaze  
 Orange cloak when required (by law in some countries).  
 The main compartment features, a padded grab handle,  
 adjustable shoulder straps, hanging strap, 2 way zip  
 semi clam shell opener. Ventilated padded back pads,  
 elasticised net pouch, drawstring bottle carrier, 4 adjustable  
 compression straps.  
 Flat opening outer pocket with 1 full sized net cargo carrier, and  
 6 elasticised small accessory holders.  
 The Base Bag can be accessed without removing from the main  
 pack, and features:

Superbly padded and insulated washable main compartment,  
 the lid has a waterproof reinforced zip pocket, the front flat  
 opening compartment has one large reinforced waterproof  
 section and two see through zipped pockets.  
 Two roomy zipped accessory pockets are supplied on each side,  
 and the entire base bag can be removed from the pack and  
 carried separately with its own heavy-duty quick release strap.  
 The Base Bag is ideal as a very well padded camera bag, as it  
 will take a large SLR, or video, with plenty of room for lenses,  
 film, flash etc.

Or  
 Use it to carry and keep your lunch fresh for hours, easily takes  
 a 1 litre flask, lunch box etc and can be washed after use.  
 Or  
 Just use it to carry wet gear, dirty socks, or whatever fits!

### Ranger 4 Back Pack

5743 Timber

73 litre Overall capacity  
(4,455.19 Cu inches)

Mark Pettigrew uses the Ranger 4 and was amazed to get all of this kit inside. And still have two compartments spare.

- 5 camo nets • 1 bag de-coy pegs • 27 shell de-coys • 1 thermo flask • 3 neck props • 150 cartridges • 1 pigeon magnet • 1 battery • 1 machete • 1 folding saw • 1 shooting stick • 1 camo jacket • 1 pair of binoculars • 1 priest • 1 first aid kit • 3 game carriers • 1 lunch box • Still had room for water and the dogs bowl. • The Ideal Pigeon shooters pack.

*"This is the most comfortable pack I have ever used"*

Mark Pettigrew

### Universal Mobile Case

Tough and attractive in black or Advantage Timber 1200D Fabric, these new mobile phone and two-way radio cases are the ideal way to carry your communication devices.

The clever design makes it possible for this model to carry virtually any phone, radio, GPS, or other instrument, safely and in comfort.

The elasticised side panels make sure that even the smallest modern phone stays in place yet the largest models we can find will still fit snugly.

The belt loop is fitted with a press fastener and Velcro so that they stay in place while you are on the move, and it is possible to attach easily to a belt, or to webbing on our range of back packs, or similar luggage.

When used with two-way radios, the open side design often allows the use of functions without the need to remove from the case (depending on equipment).

Dimensions 13cm (5") x 7cm (2.3/4") x 5cm (2")

Made from the finest materials with a seat large enough to be comfortable and as easy to carry as an umbrella.

The steel shaft is fitted with Nylon spokes and frame, so it wont buckle in even the worst weather, the folding ground plate is beautifully finished in polished aluminium and the

folding seat frame is polished aluminium and double stitched leather. Green nylon material with gold Napier of London Logo.

Weight is 1.1Kilo (2.43LB)

Max Safe Weight Loading 120 Kilos (264LB)

4756

## EZIP

At last a really effective answer to sticky zips on shooting luggage, slips, holdalls, clothing and of course the dreaded welly boots.

Footwear in particular suffers from snagging zips, which is hardly surprising when you consider all the muck, and gritty mud that gets into them. EZIP simply sprayed directly onto the offending zipper, will penetrate the teeth and by gently working the zip a few times will evenly coat the whole zip surface making sure that it runs smoothly and stays that way. Even on new products, metal, or plastic type zips run without sticking with just a single application of EZIP.

EZIP is a safe, non oily film that drives out abrasive particles and leaves an unbelievably slick friction reducer on the actual teeth and puller mechanism.

EZIP can be used safely on any type of zip, and will not harm, rubber, plastic, PVC, metal, or surrounding fabrics.

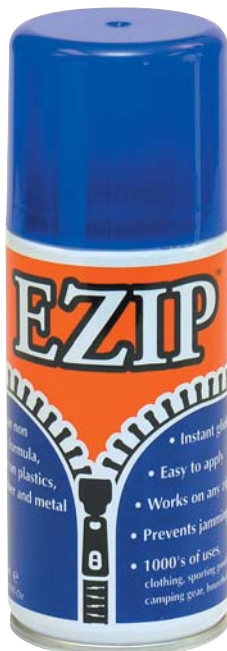

It will greatly extend the life of the items, as zip failure is the most common reason for scrapping, clothing, footwear and luggage.

Use EZIP in shooting products, fishing gear, clothing, tents, camping kit, wetsuits, waders, diving vests, automotive heavy duty truck & ATV covers, and 100s more applications.

EZIP can also be used to free up sticky mechanisms in almost anything and is ideal for curtain pullers, sliding door gear and to reduce friction any hard sliding surface.

8100 100ml (4.3 Fl Oz)

EZIP is a registered trademark of Napier Limited

# Roller GUN CARRIER

## Roller and Roller+

How many times have you struggled with a conventional gun bag when out shooting.

Of course you will appreciate a fully featured and padded slip from our extensive range for travelling, but there are times when carrying it can be cumbersome.

The new **Roller** and **Roller Plus**, have been designed to roll so small they can be literally hung from your belt loop, always there and always ready to accommodate, protect your gun from minor knocks and scratches, but most importantly, ensure that it is covered when out in public.

In fact when **rolled** up the shotgun version weighs just 185 grams (6.5 ounces) and measures 20 x 8 cm. (8" x 3")

Yet unrolled it will accommodate any shotgun or rifle without a scope up to 130cm long (51").

Strong, black outer material is lined with 2mm foam padded flock for protection, it has a reinforced end cap, adjustable webbing shoulder strap and strong rust proof ABS fittings.

Ideal for pigeon shooters, and for clay busters in between stands, it is always on hand and ready for use, a great alternative to carrying a conventional gun slip.

Less to carry yet secure and waterproof.

For rifle shooters and in particular airgunners we also offer the **Roller Plus**, designed to carry virtually any rifle with a large scope.

**Roller Plus** weighs just 274 grams (9.6 ounces) and measures just 26 x 7 cm. (10.25" x 3")

Yet unrolled it will accommodate any rifle with a large scope up to 122cm (48") long.

The shallow curved profile also allows many guns to be stowed with the bipod attached and this makes it simple and quick to use.

The **Roller** has been widely acclaimed since its launch in 2006 and has been appreciated by shooters all over the world.

**4801** Roller gun carrier (Shotgun)

**4809** Roller+ gun carrier (Scoped rifles/air rifles)

*"One of the best pieces of shooting kit I have seen in a long while"*

4752 Green

4752X Secure version

4752T Advantage Timber

NATEX material is tough, supple and quieter than many man-made fabrics; no more annoying rustling when moving through undergrowth.

Its a handy case for a broken down gun...  
and it easily transforms into a conventional gun bag.  
The 2 in 1 Protector

**PROTECTOR** **2**

Exclusive patented Napier design

How often have you struggled to fit your gun into a vehicle or found it uncomfortable and inconvenient to carry a full length sling for any distance?

At last, a solution! Protector 2 combines all the well known advantages of the traditional leg of mutton case. In its compact form, Protector 2 enables you to carry your gun disassembled and to easily stow it in the boot or behind the seat of even the smallest car, making it much more secure in transport as it could easily be mistaken for a squash racquet or small instrument.

Fig. 1

The 2 in 1 Protector. See how easy it is to convert.

Once at the shoot, simply open out the closed case (fig. 1) and assemble the gun using the padded fleece-lined surface to rest on (fig. 2). Then, simply extend the barrel sleeve (fig. 3), insert your gun (fig. 4) and then you have a conventional slip with all the advantages of our Protector 1 range.

Protector 2 will carry any shotgun up to 82cm (32") barrel length.

Featuring a fully adjustable sling, the end cap and zip panels are constructed from harness quality oak tanned leather.

With the benefit of double 8mm padding, the Protector 2 provides a tough, attractive and waterproof case with supreme protection against knocks and scratches that is as much at home on the grouse moors as it is on the local clay shoot.

Fig. 2

Fig. 3

Fig. 4

### The Protector 2. Added Features

Like all Protector products in the Napier range the Protector 2 is supplied with a full size outer pocket. For the ultimate protection from corrosion protector 2 is also supplied with an integral vapour pouch to hold one VP90 corrosion inhibitor (supplied) which will protect the gun from rust even in extremes of damp or condensation. (See page 7).

### The Choice

**4800**

# PROTECTOR secure

A major advance in combating crime, this slip could save your licence.

All the advantages of the protector 2 now lockable.

Integrated locking mechanism allows your gun to be secured inside the slip either full length or broken down for compact storage.

Secured into a car or hotel room in seconds without risk of damage to the gun. Because the protector 2 is so compact (86.3cm (34") long) it can neatly fit into even the smallest car and can be secured into virtually any position either by using the car's anchor points or simply by passing the security cord between seat and backrest.

As supplied to and used by the Great Britain Police Clay Shooting Team, using this slip whenever travelling could literally save your licence. You should never leave a gun unattended in a car or premises... yet how many shooters do just this when travelling away to a shoot?

Prevents theft from vehicle or virtually any location, can even be quickly locked around a tree or any secure position; a hotel radiator or water pipe is just as effective.

Tested and designed in conjunction with Police, security and firearms experts, the Protector 2 Secure provides the ultimate in mobile security.

Supplied with integral locking hasp; optional cord lock is also available.

Strong 2 part coated steel hasp, simply inserted through inside of bag and aligned with trigger guard ensures gun cannot be damaged, and is secured in place with security cord lock.

Now the winner of major international awards, this fully patented system provides fast and functional security when travelling.

Choose from the full length rifle or shotgun secure range or the Protector 2, the 2 in 1 folding bag for any shotgun.

Protector Secure all bags are supplied with strong two part locking hasp that fits neatly in the outer pocket of the bag.

Leather closer panel ensures the bag remains waterproof and the Security card or padlock is simply attached to the hasp when in position.

The gun remains inside the bag when secured, with no risk of damage to the gun.

Several guns may be attached using just one security cord.

### Trigger Lock

#### Auto Safe Flag

The only sure way to show your automatic shotgun cannot be fired accidentally. Simply load into the chamber leaving the safety flag clearly visible to all.

Available in 12 or 20 gauge.

6004 12g 6005 20g

Tough ratchet lock

Robust Die Cast Metal Rubber cushions hold securely and safely Cannot damage your gun

6 Spring loaded pins locate snugly around either a single or double trigger mechanism

Easily fitted and removed in seconds

Cannot be removed without key (two supplied)

The safe, effective and simple way to prevent unauthorised use of your gun.

By fitting the Napier Trigger Lock to your gun you are taking a positive step in combating crime, should your gun ever be stolen from your home, a shooting ground or a locked car you can be sure that the added security will demonstrate that you have taken some precaution to prevent its immediate use by an opportunist thief.

Fits virtually any gun **2500**
